Rosemont, IL 60018

Dear Mr. Shepherd:

U.S. EPA has reviewed the "Addendum to the Second Work Plan Supplement" (Addendum) transmitted by your October 24, 1990 letter to me. The following changes must be made to the document in order for U.S. EPA to approve it:

- 1) A sketch of the borrow pit area must be provided. Areas to receive roadway cover and areas to receive 24" soil cover, with vegetation, must be indicated on the sketch,
- 2) A title page or other indicator must be provided which establishes this document as an addendum to the Second Work Plan Supplement,
- 3) Plan 1 and Plan 2 must be amended to indicate areas of roadway cover/soil cover in the borrow pit area, and
- 4) It must be stated that the completion deadline of May 31, 1991 shall apply only to the work being performed on and adjacent to the borrow pit boundary perimeter road.

Please submit the revised Addendum as soon as possible and transmit a copy to the Illinois EPA as well as U.S. EPA. If you have any questions concerning this letter, please contact me at (312) 886-4742.

Sincerely yours,

Brad Bradley
U.S. EPA RPM
